CORRECTIVES

Be the best version of yourself with our next-level face and body treatments.

Infini

Infini is a collagen induction therapy treatment. Micro needling and radio frequency are delivered simultaneously into the skin with multiple passes at varying depths. This builds volume and causes collagen fibres to coagulate and shrink, lifting and tightening the skin. By introducing heat into the dermis, it also encourages collagen growth. Safe for all skin colours, this treatment can be performed at any time of the year. Because there is no thermal heat or trauma to the skin's surface, you can expect faster healing and minimal social down time.

Clarity skin rejuvenation

Clarity skin rejuvenation is a proven technology that can treat conditions such as pigmentation, sun damage and broken capillaries. The result is a clearer, more even skin tone and more vibrant skin that's firmer and less wrinkled. This dual-wavelength laser can be used safely for a wide range of skin colours and skin conditions. It's also non-ablative, which means it's gentler and less invasive. This keeps surrounding tissue healthy and intact and helps to ensure minimal recovery times.

LED light therapy

LED light therapy can help to reverse the effects of ageing and restore your appearance. It works by stimulating your skin's natural production of collagen and elastin. It's a safe, painless and non-invasive treatment that can help to restore your skin's cells to optimal health.

Cosmetic injectables & dermal fillers

Dermal filler treatments are comfortable, natural looking, quick and convenient. Made of biocompatible products that are completely safe, they've been used for many years already in Australia and around the world. You're in expert hands with industry leaders Dr Peter Bakaric and Tracy Weekly working directly with you to achieve the results you're looking for. They can treat your lines and wrinkles – frown lines, crow's feet, under-eye lines and more. They're also skilled in minimising furrows and depressions, adding volume to your cheeks, chin and jawline or helping you achieve fuller lips.

Skin peel

Our skin peels are resurfacing treatments that work in the deeper layers of the skin to renew, rehydrate and plump the skin. Treatments last 30 minutes.

Resurfacing

These treatments lift dead skin cells off the surface of your skin and reduce congestion, leaving you looking radiant. We offer microdermabrasion techniques that feature diamond tips to exfoliate, buff and refine the skin. The second part of the treatment, hydrabrasion, infuses water into the skin to deeply cleanse, purify and hydrate.

Hydrating facial

Using clinically proven cosmeceuticals we will tailor your facial to suit your skin concerns. You'll experience instant visible results and the lift in mood and confidence that comes with looking and feeling wonderful.

HAIR REMOVAL

We've brought the very best technology into the clinic for you so you can leave your razor behind.

Clarity laser hair removal
Clarity's proven technology is safe, efficient and comfortable. Featuring dual wavelength technology, it can be used to treat any combination of skin and hair colour from very fair to very dark skin. The first step is a thorough consultation and a patch test. Treatment plans feature a minimum of six treatments, four to six weeks apart. Once in a while, we recommend a top-up treatment to target any new hair.
